

Public Rights of Way Report July 2024

RB on behalf of the Public Rights of Way Committee reported a long-standing issue with bridleway KI 107, located at the Ridgeway end of Woodcote, South Killay. It runs in between the football field and scrubby woodland. Over the years the grass and scrub has been allowed to grow over the bridleway making it difficult for horses and riders to navigate and thus are forced to move off the path and into the football field. This has understandably caused complaints by users of the football field. This, with the presence of a “No Horses” sign on the football field has discouraged horse riders to use it. An email was sent to Chris Dale, Manager of the Council Countryside Access Team requesting that the bridleway is cleared.

In addition, an update was requested on the provision of signage, agreed over a year ago, at the beginning of KI113 where it begins North of Hendrefoilan Road at Lledglawdd Farm, and another at the junction of KI113 and KI114 indicating the newly reestablished footpath that runs towards Tŷ Coch.
